

QUICKFIRE CLICK ONCE PAF READER

By installing the Muddy Boots Click Once PAF Reader application, you will never need to manually install another PAF Reader update again. The Click Once application will automatically check for updates and ensure that you have the latest version of PAF Reader, guaranteeing that you are getting the most up-to-date functionality. All you need to do is uninstall your current version and follow the instructions below.

INSTALLATION GUIDE

The Quickfire Click Once PAF Reader application is used to check for the latest version of the PAF Reader.

Please follow directions below to install and use this application.

Please note:

- We recommend that you use either Internet Explorer or Firefox to access the links below
- Ensure that any previous version of the PAF reader has been un-installed. For instructions on how to do this please follow the link: [PAF Reader Uninstall Guide](#)

PRE-REQUISITES

Please note that you need the following packages installed prior to installing the Quickfire PAF Reader:

- Windows Installer 3.1
- .NET Framework 3.5 SP1
- SQL Server Compact 3.5 SP2

To install these:

1. You need to have administrator rights on your machine, if you are unsure please contact your System Administrator
2. Click on the link below or copy into your browser:
<http://public.muddyboots.biz/Downloads/PafReader/WebDeploy/>
3. Or visit the Muddy Boots website at <http://en.muddyboots.com/support-downloads>
4. Click on the **Install Prerequisites** button:

quickfire 

Quickfire PAF Reader 

Name: PAF Reader
Version: 3.2.1.13
Publisher: Muddy Boots Software Limited

If the components listed below are already installed, you can launch the application now

[Launch PAF Reader](#)

To install the prerequisite packages, you must have administrator rights on this machine.

Please note that during the installation of the prerequisite packages, you will be given an opportunity to also install the PAF Reader application. If you wish to install the prerequisite packages only, then this step is unnecessary. In this case, the intended user of the PAF Reader application will need to return to this page and click the Launch PAF Reader once the prerequisite packages have been installed.

- Windows Installer 3.1
- .NET Framework 3.5 SP1
- SQL Server Compact 3.5 SP2
